

EXPERIENCE

Data Analyst | Finestar Jewellery & Diamonds Pvt. Ltd. (Vaghasiya Enterprise), Surat, India

Aug 2023 - Present

- Developed and maintained interactive **Power BI dashboards** to visualize complex data, enhance decision-making, and drive business insights.
- Transformed complex datasets into insightful and visually compelling reports using **advanced Excel** Functions and data visualization techniques.
- Utilizing **Python** libraries to derive actionable insights: **Pandas** for data manipulation, **NumPy** for numerical computation, and **Matplotlib** for data visualization.
- Developed data-driven web applications by integrating **MongoDB** queries for efficient data retrieval and manipulation, leveraging **Python** and **Streamlit** for an interactive front-end.
- Implemented machine learning techniques for **price prediction**, improving accuracy by **5%** over previous models.
- Automated manual factory tasks using Excel tools, **reducing processing time by 10%** and enhancing operational efficiency.
- Developed **real-time dataflows** in Power BI to enable timely decision-making through live updates.
- Developed **advanced Excel reports** and analysis to meet urgent business needs, leveraging **pivot tables**, **custom formulas**, and **data visualization**.

Odoo Developer | Laxicon Solution

(May 2022 - Jun 2023)

- Developed and implemented **Rental Management System, Bridal Studio System, E-Way Bill & Invoice Module, Tailor Management System**, and **Employee Biomax Integration** to streamline business operations and enhance efficiency.
- Integrated new modules into existing live projects to enhance functionality and performance.

SKILLS

- Languages:** Python | R Programming | Odoo
- Analysis & Visualization Tools:** Advanced Microsoft Excel (VBA, Macro) | Power BI | Google Analytics | Microsoft Office
- Database & Management Systems:** MySQL | MongoDB
- Packages & Frameworks:** Pandas | NumPy | Streamlit
- Platforms & Other:** Jupyter Notebook | Visual Studio Code | GitHub
- Soft Skills:** Communication | Problem Solving | Leadership | Adaptability | Teamwork | Presentation | Time Management
- Operating Systems:** Windows | Linux

EDUCATION

Bachelor of Computer Applications	(2019-2022)
Veer Narmad South Gujarat University, Surat, Gujarat With 7.02(CGPA)	
Master of Computer Application	(2023-2024)
Bhagwan Mahavir College of Management With 8.88(CGPA)	

PROJECTS

- E-commerce Store Dashboard | [Link:](#)**
 - This Ecommerce Sales Dashboard provides insights into sales and profit trends across different states, cities, and product categories. It highlights **monthly profit** variations, **top-performing regions**, and the most **profitable product categories**, helping businesses make data-driven decisions to boost revenue.
- HR Dashboard | [Link:](#)**
 - This HR Analytics Dashboard highlights employee attrition trends across education, age, salary, job roles, and tenure. It helps identify key areas of high turnover, with mid-career professionals and certain roles experiencing the most attrition. Gender and salary also influence **attrition rates**. This analysis supports HR in making data-driven decisions to improve retention.
- Superstore Analysis Dashboard | [Link:](#)**
 - This Global Superstore Dashboard provides insights into sales, customer trends, and market distribution. It highlights key metrics, **top-performing regions**, and best and **worst-selling products**, helping businesses optimize sales strategies and improve performance.
- Mart FMCG Supply Chain Dashboard | [Link:](#)**
 - This Power BI dashboard optimizes FMCG supply chains by tracking OTIF, IF, and OT delivery rates. It analyzes customer, city, and **product performance, highlighting delays**. Interactive features like **field parameters** and **decomposition trees** enable detailed **data exploration**, driving informed decisions for improved efficiency.
